EXCELLENCE IN ENGINEERED TECHNOLOGY™

- Quality engineered products
- Robust supply chain
- Cost competitiveness
- Expertise in private labeling
- Enhanced category management
- Exemplary fill rates

Growth Through Innovation & Strategic Alignment

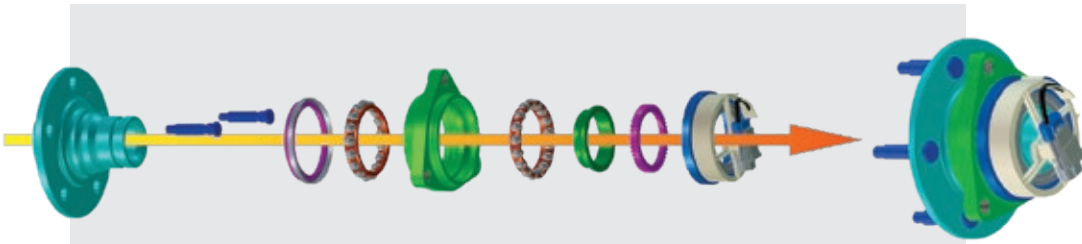

- 2010** - Bearing Technologies forms strategic alliance with Micron Metalworks
- 2008** - Bearing Technologies acquires North Coast Bearings
- 2006** - Bearings Technologies acquires Reineke
- 2003** - Bearing Technologies acquires Green Bearing
- North Coast Bearings assumes Coast To Coast Automotive Products brand from The Timken Company
- 2002** - Bearing Technologies enters into long-term supply agreement with Dana
- Reineke acquires the Bosch Ashland, Ohio hub plant
- 1997** - North Coast Bearings forms strategic alliance with The Timken Company
- 1995** - Bearing Technologies founded
- 1983** - North Coast Bearings founded
- 1942** - Green Bearing founded

bearingtech™

EXCELLENCE IN ENGINEERED TECHNOLOGY™

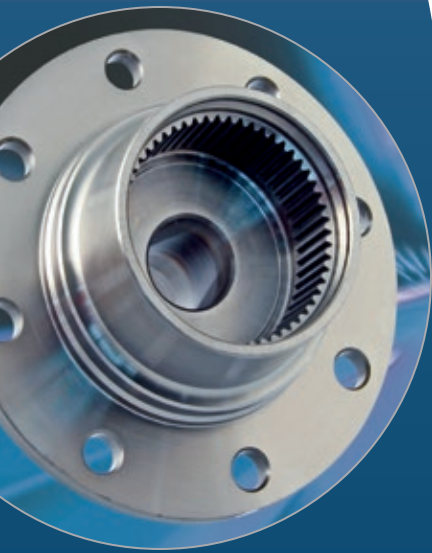

Bearing Technologies engineers and manufactures OEM quality wheel end products and OEM center support bearings.

- Forward engineered quality products
- Complete on-site design capabilities for all bearing components, including GEN 3 applications
- On-site test validation equipment
- Custom designed manufacturing and assembly capabilities
- Roll form equipment utilizing the latest OE technology

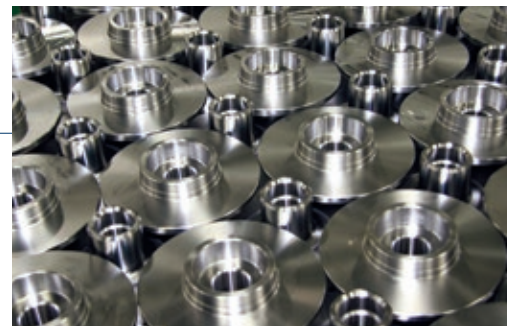

ISO 9001
QMI-SAI Global

Micron Metalworks has the CNC expertise to meet the challenging needs of its OE customer base utilizing state of the art manufacturing technology to provide customers the highest level of precision machined products.

- State of the art manufacturing technology
- Engineered controlled quality processes
- Value added focus
- Cost competitive components and complete assemblies
- Exemplary delivery

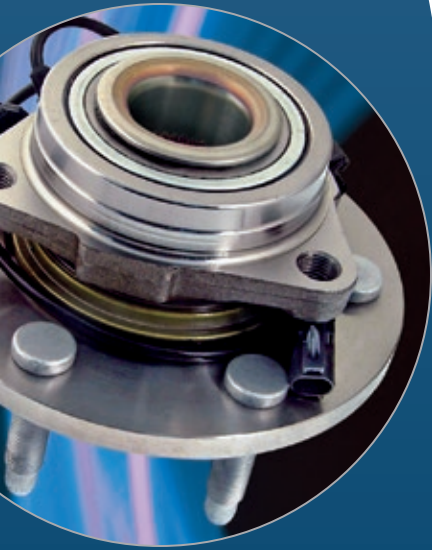

North Coast Bearings markets and distributes differential rebuild kits, transmission rebuild kits, and related products to the heavy, medium and light duty aftermarkets under the DT Components® brand. This brand was created through a strategic alliance with The Timken Company.

- Premium OE approved product, Timken® where available
- Largest offering of rebuild kits for differentials, manual transmissions, and transfer cases
- Gearing and related drivetrain products
- Electronic web catalog
- Private labeling programs

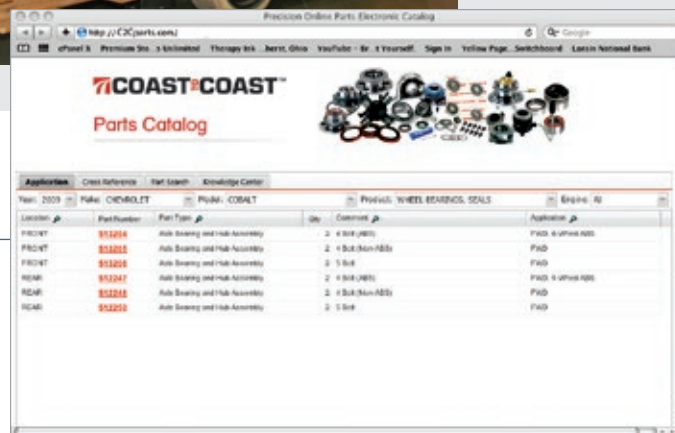

COAST to COAST™

The Coast to Coast product line provides extensive coverage of hub assemblies, wheel bearings, seals, center support bearings, universal joints, repair sleeves, trailer kits, agricultural bearings, heavy duty wheel bearings, and oil bath seals.

- Various private labeling options are available to fulfill customer's individual needs
- Interactive application and interchange catalog available on the Coast to Coast website and through additional catalog providers
- Prompt shipment of orders
