

## Heavy Duty Wheel Seals

Precision™ wheel seals incorporate key design features that have been successfully employed in sealing oil and grease on heavy duty applications for decades. Utilizing this proven design, Precision economically delivers a high quality wheel seal that is manufactured at a state of the art ISO/TS 16949 certified factory.

- Unitized Steel Cartridge is designed to provide maximum strength
- Oil Resistant Nitrile provides a tough, abrasion resistant elastomer
- Primary Sealing Lip is a spring loaded hydrodynamic lip that pumps oil back to the bearings
- Axial Dirt Lips have fixed interference that excludes dirt and prevents contamination
- Bore Sealant coated seal OD, where applicable
- Easily Installed with existing wheel seal installation tools

**Quality  
Tested and  
Approved**  
ISO / TS 16949

The Precision™ product line provides extensive coverage of your Wheel Bearings, Center Support Bearings, Universal Joints, Clutch Release & Pilot Bearings, Agricultural Bearings, Hub Assemblies, Differential, Transmission and Transfer Case Rebuild kits, bearings and seals for your Heavy Duty, Light Duty and Automotive applications.

Our goal is to be your number one supplier for all of your heavy duty and automotive bearing, seal and related product needs with an emphasis on quality, service and value.

- We offer a variety of private labeling options to fulfill customer's individual needs
- Electronic application catalog and interchange available on our website
- Prompt shipment of orders
