

Hub Caps

North Coast Bearings has expanded the Coast to Coast™ product line to include coverage of all the popular hub caps that are used on trailers and trucks.

These hub caps are made at an ISO9001 certified factory to NCB's exact specifications and tolerances go through vigorous testing during the manufacturing process to ensure they withstand the harsh operating conditions that are encountered in the USA trucking environment.

These hub caps are available with and without the side fill plug. Available part numbers and applications are listed below.

Without Fill Plug	With Fill Plug	Series	Application
P340-4009	P343-4009	4009	Trailer - HM218248/10 & HM212049/11 Bearings 6 Bolt 5-1/2" Circle
	P343-4013	4013	Trailer - Various & HM212049/11 Bearings 5 Bolt 5-1/2" Circle
P340-4075*		4075	Trailer - HM518445/10 Bearings Threaded Cap
P340-4975**			
P340-4195	P343-4195	4195	Trailer - HM518445/10 Bearings Non-Threaded Cap 6 Bolt 6-3/4" Circle
P340-4024	P343-4024	4024	Steer - HM212049/11 & 3782/20 Bearings
P340-4249	P343-4249	4249	Steer - HM212049/11 & 3782/20 Bearings KW Hub
P359-5990			Black Vent / Fill Plug
