

# Polyurethane

## Self-Aligning Center Support Bearing

### HB210661-1XSAP

### Features

- **Proprietary Chemical Resistant Polyurethane Insulator which reduces deterioration from a variety of solvents / contaminants**
- **Manufactured for High Torque, Heavy Workload applications**
- **PATENTED design eliminates cushion distortion when assembled off-Axis**
- **Direct replacement for OEM 5003363 / 10094142 / 210661-1X**
- **Bearing Pivots (+/- 10) degrees for ease of Alignment / Installation**
- **Bearing contains Dual Inner / Outer Seals to provide Maximum Contamination Barrier as well as Lubrication Retention (No need for Slings)**
- **Higher Capacity Bearing than OEM for improved longevity**
- **Assembled in USA with US & Imported Components**
