

# Rebuild Kits for Spicer Transfer Cases

The DT Components product line has expanded to include rebuild kits for Spicer transfer cases.

These rebuild kits are complete and contain all of the bearings, seals, gaskets and o-rings (for both old and new style disconnects) that are necessary to rebuild the unit.

In addition to the above complete rebuild kits, we also offer the seal, gasket and o-ring kits listed below.

Model Number	Comments	Kit Number
738	Direct Mount	TCRK-738
738-A	Remote Mount	TCRK-738A
784		TCRK-784
